High Capacity

High Security

In today's society there's nothing more critical than the accumulation of large volumes of confidential waste. A company's financial records, health information or personnel records can be seen by all if not shredded immediately. Dahle High Capacity Shredders are just the tools to destroy large quantities of paper in a short amount of time. These machines fit nicely in company mail rooms or any other centralized location where large amounts of shredded material is taken. Expensive shredding services are no longer needed with the ability to hold 50 gallons of shredded confidential waste. Not to mention the confidence in knowing your documents are immediately destroyed and can no longer be seen by others.

Our smaller High Capacity Shredders have a 16" feed opening and can handle up to 43 sheets (20396) and up to 60 sheets (20390) of paper at a time. These machines are driven by a powerful 2 horsepower motor and are designed to shred between 12,000 and 28,000 sheets of paper per day. Both

shredders feature full electronic capabilities including such safety features as automatic shutoff when the door is open and auto reverse to prevent an overfeed. Housed in a wooden cabinet with casters, these rather stout machines are easy to move and position in their place of operation.

If you looking for something with a little more power and capacity, Dahle's largest shredders have a 17" feed opening and can handle up to 85 sheets (20453) and up to 100 sheets (20452) of paper at a time. These hopper style units are intended to shred between 28,000 and 2 tons of paper per day and are driven by a powerful 3 horsepower motor. Metal construction makes these shredders extremely durable and with the addition of three fold out tables, stacking papers and material is now more convenient. These gentle giants are surprisingly quiet for their size and their user friendly controls make them easy for anyone to operate. For safety purposes, these machines feature a special locking mechanism to prevent injury and unauthorized use.

SHREDDING SOLUTIONS

High Capacity Shredder Models

20390

1/4" Shred Size
55/60 Sheet Capacity
Security Level 2
2 1/2 Hp Motor
Full Automatic

20396

1/8" x 1 9/16" Shred Size
38/43 Sheet Capacity
Security Level 3
2 1/2 Hp Motor
Full Automatic

20452

1/4" Shred Size
85/100 Sheet Capacity
Security Level 2
4 Hp Motor*
Manual On/Off

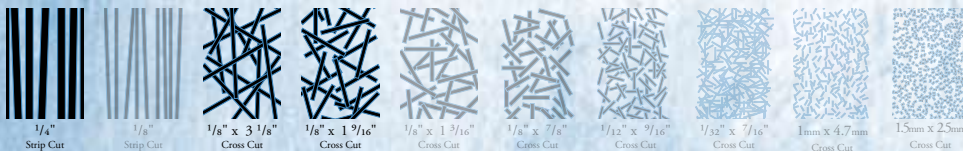

20453

1/8" x 3 1/8" Shred Size
65/85 Sheet Capacity
Security Level 3
4 Hp Motor*
Manual On/Off
